# KIND & NOBLE

**REMARKABLY FLAVORFUL  
AND NUTRITIOUS.**

Kind & Noble fruit juice blends deliver all of the healthful, flavorful and nutritional benefits of fresh fruits and vegetables, just like nature intended. We start with 100% natural, Georgia-grown peaches, plums, apples, kiwis, carrots, grapes, strawberries and feijoa. Using just the right balance and proportion of sweet, sour and spice, we create undeniably distinctive blends that are packed with flavor and nutrition, contain no added sugar, no artificial ingredients and are immensely enjoyable.

Consumers are advised to shake each bottle thoroughly before opening, allowing ingredients that may have settled to be fully incorporated. It is also important to note that, since we use fresh ingredients without artificial food coloring or preservatives, the color of our juice blends may vary slightly from bottle to bottle.

All of our products should be stored in a cool, dry place. Once opened, they should be securely sealed, refrigerated and consumed within 24 hours.

Passed ISO 22000 with support from USAID.

Salt	5.28 g

## ORIGINS

Kind & Noble is owned and managed by Georgian AgroProduct. Located in the Chumlaki, Gurjaani region of Georgia, Georgian AgroProduct's mission is to encourage the production and processing of Georgia-grown fruits and vegetables.

A portion of the fruits and vegetables we collect are sorted and packaged whole, then sold to manufacturers and retailers for further processing and packaging. We also use these ingredients to make a variety of fruit and vegetable purees that are the essential ingredients for our Kind & Noble brand of fruit juice blends. A portion of these purees is also packaged in bulk and distributed to both local and international markets where they are used in the manufacturing of ice creams, sorbets, confectionery and juice products.

Always on the forefront of emerging technologies, we employ state-of-the-art sorting, grading, processing and packing systems to ensure that all of our whole and added value products comply with international standards for quality, performance and food safety.
